GROW WESTERN MAINE EVERGREENS

and be sure of growing the BEST!

When you invest in Western Maine Evergreens you are buying the very best available. Personally selected from the finest disease-resistant stock; grown in Maine's rich natural soil; treated to special fertilization, irrigation and spraying methods, Evergreens from Western Maine are the healthiest, hardiest and most beautiful you will find. And just look at these low prices. No wonder tree growers everywhere think first of Western Maine . . . here they are assured of both high profit and complete customer satisfaction.

YOU CAN EASILY PLANT 1,000 TREES A DAY

Western Maine Evergreens are easy to plant because they have been conditioned to withstand transplanting in any climate. The illustrations show the proper planting technique:

To begin, insert spade straight into the ground. Pull handle back and push forward to form opening for tree back of spade. Next, spread out the roots carefully and place the tree in the hole. Close opening by stamping the soil on each side with your heel.

WESTERN MAINE'S SCIENTIFICALLY DESIGNED SPADE

Cuts Your Planting Time in Half

SPECIAL
SPRING
OFFER

\$10.⁵⁰*

This is the very same tool our nursery folk use. It is sturdily constructed for years of rugged use. Perfectly balanced with just the right weight to help free roots quickly and safely. One man can easily plant 1,000 trees a day with very little effort. You'll find a hundred and one uses for this versatile digging spade. Order several today at this special low spring price.

SEND FOR YOUR FREE COPY OF OUR Christmas Tree Booklet

Here's our valuable Christmas Tree Booklet that tells you how to turn idle, useless land into profitable Christmas Tree production. With hardly any labor or cultivation, you can convert an investment of pennies into an income of as much as one thousand dollars every Christmas season.

While maturing, this Cash Crop will be improving your soil by retaining moisture, restoring fertility and preventing erosion. More than 40 million Christmas Trees are sold every year at a sale price of \$1 to \$5 each. Why not take your share of this lucrative market by planting your own handsome Christmas Trees. Western Maine Evergreens are **GUARANTEED TO LIVE** — your best assurance of quality Evergreens. Write today for your **FREE CHRISTMAS TREE BOOKLET**.

*Tool is shipped F.O.B. FRYEBURG, unless otherwise specified.

PRICE LIST

You SELL MORE when you SELL THE BEST . . .

Here on Western Maine's 120 acre Nursery you will find the most scientific planting techniques yet developed. By using modern methods of propagating, fertilizing, spraying and handling, we grow trees with healthier, thicker foliage; sturdier, straighter branches; stronger more fibrous root systems. And because every tree is transplanted at least once you can be sure that wherever they are planted, they will grow and flourish. We at Western Maine take pride in every tree that we sell and every order of transplants shipped carries its own guarantee . . . your assurance of complete satisfaction.

SCOTCH PINE

For several years we have been experimenting with various strains of Scotch Pine and with seed from different sources. We believe that we now have a very good selection to choose from. The Austrian Hill strain seems to be fast growing and have good color. The French Highland strain seems to be quite compact and have excellent color. The North German strain is also a good grower and holds its color quite well. We also have a few three-year transplants in the South Sweden strain, which we believe is good.

TRANSPLANTS

Kind	Age	Size	Transplants	Per 1000
American Arborvitae	5-yr.	8-12 in.	2-3	\$ 75.00

White Spruce	3-yr.	5-10 in.	3-0	30.00
Japanese Black Pine	2-yr.	3-6 in.	2-0	30.00

TRANSPLANTING INFORMATION

The figure 2-2, shown in the price list, represents the number of years the trees have been in seed beds, the number of years in transplant beds and the number of times transplanted. The first figure indicates the number of years the trees remained in the seed bed before being transplanted. The second figure indicates the number of years the trees remained in the transplant bed. The total of the figures indicates the age of the tree and each dash represents one transplanting. Thus, a 2-2 White Pine is a 4-year-old tree which remained in the seed bed two years, was transplanted and remained in the transplant bed two years.

*WHITE PINE

White Pine may be shipped into all states (and the District of Columbia) except Arizona, Colorado, Nevada, New Mexico, Utah and California.
